**AVFAB EARNS ITALIAN EASA APPROVAL FOR
BEECHJET 400/MITSUBISHI 300 STRETCHER**

Clinton, MO – February 28, 2007 - AvFab is pleased to announce that it has recently earned Italian European Aviation Safety Agency (EASA) approval for their Beechjet 400/Mitsubishi 300 stretcher system.

AvFab manufactures the stretcher kit for the Mitsubishi MU-300, Beechjet 400, 400A, and 400T aircraft. The Stretcher Kit provides an operator with the option of transporting an ill or non-critical patient. The kit is designed as an economical alternative to complete medevac systems. Stretcher kits include mounting apparatus, litter, restraint system, weight and balance data and simple installation instructions.

“We are extremely pleased to offer this product to our International Customers,” said G.R. Lowe of AvFab. “The Italian approval expands the usefulness of our products to the other EASA member countries due to its bilateral acceptance.”

AvFab provides inspection, repair and overhaul of corporate aircraft interior components, and is also an FAA-PMA producer of custom aircraft seating. AvFab’s sister company, Central Airmotive, is a comprehensive supplier of Original Equipment Manufacture interior products such as seats, divans, tables, toilets, cabinets and dividers. Central Airmotive currently has over 90,000 sq. ft. of OEM seats and cabin components. Together they represent a “one-source” solution to any corporate aircraft interior need. For more information on any of the products offered by AvFab, please call (660) 885-8317.
