**AVFAB EARNS STC APPROVAL FOR EXCLUSIVE
CITATION V (560) ENCORE 2-PLACE DIVAN**

Clinton, MO – January 8, 2004 - AvFab is pleased to announce that it has recently earned a Supplemental Type Certificate for their exclusive 2-place divan for the Citation 560 Encore. This specific divan is designed for use on model year 2000 or newer aircraft.

The divan is engineered to mount smoothly and easily to the floorboard, because there are no seat tracks to tie into in 2000 or newer models of the Encore.

AvFab manufactures two types of the Citation Encore 2-place divan to fit aircraft featuring the RH Forward Slimline galley directly behind the co-pilot, and a longer version of the divan for aircraft not featuring this galley configuration. Both versions feature a shoulder harness design that is mounted directly to the divan, so no side-wall modification is necessary. With AvFab's innovative design, the aircraft can be returned to the original configuration if required, with minimal effort. Under-divan storage compartments are also available.

This STC is significant to 2000 or newer Encore owners because no one else currently offers a 2-place divan for that aircraft, not even Cessna. AvFab also offers a different design that fits on Citation Encores older than 2000.

"We are extremely pleased to offer this product to our customers. It gives operators more options for extending the utility and versatility of their Citation Encore 560," said Jeff Lowe of AvFab.

AvFab not only provides inspection, repair and overhaul of corporate aircraft interior components, but are also an FAA-PMA producer of custom aircraft seating. AvFab's sister company, Central Airmotive, is a comprehensive supplier of Original Equipment Manufacture interior products such as seats, divans, tables, toilets, cabinets and dividers. Central Airmotive currently has over 60,000 sq. ft. of OEM seats and cabin components. Together they represent a "one-source" solution to any corporate aircraft interior need. For more information on any of the products offered by AvFab, please call (660) 885-8317.
